

## XH20P-00000

## Humidity probe, output 4÷20mA

This humidity probe is suitable for all those applications where it is necessary to detect and control humidity. Such applications are: refrigeration, drying processes etc..

### Features

<b>Power supply</b>	9÷18Vdc, 19÷35Vdc
<b>Output</b>	4÷20mA
<b>Power consumption</b>	22mA max

### Measurement

<b>Measurement range</b>	0÷99% R.H.
<b>Accuracy</b>	±3%

### Generals

<b>Protection</b>	IP65
<b>Operating temperature</b>	0°÷70°C 32°÷158°F
<b>Storage temperature</b>	-30°÷85°C 22°÷185°F
