

XH10P-00000

Humidity probe, output 4÷20mA

This humidity probe is suitable for all those applications where it is necessary to detect and control humidity. Such applications are: refrigeration, drying processes etc..

Features

Power supply	9÷18Vdc, 19÷35Vdc
Output	4÷20mA
Power consumption	22mA max

Measurement

Measurement range	30÷90% R.H.
Accuracy	±5%

Generals

Protection	IP65
Operating temperature	0°÷60°C 32°÷140°F
Storage temperature	-30°÷85°C 22°÷185°F
